🇪🇬 Egyptian

Professional Summary

Flutter developer with experience in building cross-platform mobile applications, specializing in location-based services, payment integrations, and Clean Architecture. Strong knowledge of Google Maps API, CI/CD pipelines, and responsive UI/UX design. Proven track record of app deployment on both Google Play and Apple Store.

Work Experience

01/2025 – Present
Remote

Flutter Developer- Freelance

Mroonah

Developed a healthcare application called **Mroonah**, designed to help users locate nearby healthcare providers and book home medical services.

Responsibilities:

- Integrated **Google Maps API** to determine user location and display service providers.
- Implemented **payment functionality** with **MyFatoorah** for secure online transactions.
- Worked with **refresh and access tokens** to manage user authentication securely.

10/2023 – 01/2025
Remote

Flutter Developer – Full-Time

Rise Up

- Developed a **Client App** for water ordering using **Google Maps API** and **payment integration**.
- Developed a **Delivery App** to manage real-time delivery orders using **Google Maps API** and **MVVM Architecture**.

07/2023 – 09/2023
Remote

Flutter Developer Intern

Rise Up

- Collaborated with a team to develop an app for delivering water to mosques and homes in Saudi Arabia.

- Integrated **Google Maps API** to manage client locations and **order management** features (create, update, delete).
- Redesigned the **UI/UX** for enhanced user experience.
- Managed deployment on **Google Play** and **Apple Store** using **CI/CD pipelines**.
